

CHICAGO TEAMSTERS' STRIKE ENDS TONIGHT OR TOMORROW MORNING

**Sheriff Barrett Positively
States Hostilities
Will Close.**

CALLING IN THE GUARDS

**Neither Side to Claim Victory.
But Best Men Go Back
to Work.**

Chicago, May 19.—"The strike will end tonight or tomorrow morning. There will be no claim of victory or defeat by either side. The employers will take back the teamsters who are worthy and desirable men and who have not violated the law."

REPORT CONFIRMED.

This declaration was made by Sheriff Barrett today and was confirmed from several sources. The sheriff began to call in extra deputies engaged in guarding the wagons of the Employers' Teaming company.

MAYOR ALSO INFORMED.

Chicago, May 19.—Mayor Dunne today said he had learned from a source not connected with either side of the teamsters' strike, that the strike will be called off within 24 hours.

A report appeared on the ticker today that Sheriff Barrett had informed the grain firm that a settlement of the trouble had been reached and the announcement will be made this afternoon.

Board Holding Council.

Chicago, May 19.—The national executive board of the teamsters' union came to Chicago this afternoon, and are holding a secret session.

Shea Makes Flat Denial.

Chicago, May 19.—President Shea, when told of the declaration of the mayor and sheriff said:

"There is no man in the world that has the power to call this strike off or make any such settlement. The teamsters' joint council alone has that power. The council has not considered any such proposition."

Gompers Departs.

Chicago, May 19.—Overtures looking to a peaceful settlement of the teamsters' strike here were temporarily set aside today. Through the departure of President Gompers for Dayton, O., last night the chief influence upon which the hopes of peace were centered was removed.

Shea Defiant.

The defiant attitude of International President Shea and his bitterness toward the State street merchants whom he accuses of conspiring to wreck the teamsters' organization, seemed to preclude the possibility of any definite action.

Flour Famine Imminent.

A serious flour famine is threatened in Chicago as a result of the spreading of the strike to include the wholesale flour manufacturers and dealers. Peter Livingston & Co. today ordered the flour taken to a boycotted house and when the driver refused to make the delivery 28 union drivers were discharged. It is said each of the manufacturers and dealers who supply the bulk of the retail trade in the city would take similar action, whenever the drivers refused to make deliveries.

GAS GRAB PASSES

**Exciting Scenes in Philadelphia
Council During Vote on
Measure.**

MOB WITH ROPES IN HAND

**Leases City Plant to Company for 75
Years for Rental of \$25,-
000,000.**

Philadelphia, Pa., May 19.—With 2,000 angry citizens carrying a hundred handman's ropes crowding the galleries and corridors of the city hall yesterday afternoon and evening, the city council leased the Philadelphia gas works to the United Gas Improvement company for a term of 75 years.

The final vote was taken with police reserves holding the citizens back with drawn revolvers to prevent them from invading the council chambers.

Mobbed Aldermen.

Every alderman who voted for the lease had to be protected from mobs by the police after the council adjourned.

Threats of lynching the aldermen are heard. Some even declare that only two good leaders are needed to induce the people to take in their own hands the punishment of the councilmen who voted for what is openly declared the "blackest crime ever perpetrated in Philadelphia."

Now Up to the Mayor.

The offer of the United Gas Improvement company for a 75-year lease, amended so that the city will get 80-cent gas in 1956, now awaits the mayor's action. In the common council the vote was 74 to 9, and in the upper branch the result stood 37 to 4.

Two Rival Proposals.

The committee had before it two propositions, one from the United Gas Improvement company and the other from E. B. Smith & Co., bankers of this city, representing New York and Philadelphia capitalists. The Smith bid proposed to share the profits with the city at the rate of one-third for 10 years and one-half for the remaining 65 years; and also provided that the city could reduce the price of gas as the profits increased.

The bid of the United Gas Improvement company proposed to take the city plant for 75 years and to pay the city therefor a rental of \$25,000,000, all to be paid before the end of 1907.

Citizens Called to Act.

The "committee of nine" has called for a great assemblage of citizens to block the final attempt to "complete the conspiracy" after the mayor's veto.

**Deputy From Asia Demands Fortification of Coast
at Cost of \$42,000,000 as Protec-
tion Against Japan.**

Paris, May 19.—M. Francois de Loncle, republican deputy for Indo-China, has submitted to the special parliamentary committee on naval affairs a remarkable report on the urgent necessity for the strengthening of the defense of Indo-China at a cost of \$42,000,000 against the peril of Japanese invasion.

Has Two Enemies.

"Indo-China," he says, "has only two enemies to fear, namely, Japan alone, or China encouraged and supported by

Japan. The former constitutes the real danger, for Japan has much to gain and little to risk, and her isolated position makes her almost invulnerable to us."

Could Act Quickly.

De Loncle then points out how Japan in a few weeks could land 100,000 men into Indo-China, and easily reinforce that force, and with her mastery of the sea Japan could blockade France's only naval base, Saigon, as effectively as she did Port Arthur.

Fought All Day.

During the nine hours of debate yesterday they steadily maintained their position, but the white flag was run up last night, when a large number of amendments proposed by Senator Whitehead to the committee bill were voted down one by one. The surprise was sprung when the question of enrolling the bill came up and every senator voted in the affirmative.

Great Applause.

This action was greeted with a storm of applause by the large audience present, and Senator Kreutzer, stalwart, immediately moved a suspension of the rules, and the bill was put on its final passage. This was done and the great fight of the session was over.

The bill will now go to the assembly, which will withdraw the measure it passed and concur with the senate. Gov. La Follette will sign it immediately.

SEVERAL WERE KILLED

**Attempt on Life of Governor
General of Warsaw
Intended.**

Warsaw, May 19.—A workman who was trying to escape the observation of two detectives today stumbled on the sidewalk and a bomb which he carried in his pocket exploded killing the workman, both detectives and some persons who were passing by. It is believed the bomb was intended for Gov. Gen. Maximovitch who was expected to pass the spot on the way to a cathedral to attend services in honor of the czar's birthday.

Were Two Workmen.

Later it was stated two workmen and two detectives were killed, two passersby severely injured and others lightly hurt. The bodies of the victims were blown to atoms.

Building Demolished.

The cafe near the scene of the explosion was entirely demolished, and all windows in the neighborhood were smashed.

The first report was to the effect that the bomb had been thrown among the local officials who were on the way to the cathedral, and caused intense excitement.

Parts of Bodies Scattered.

When a correspondent of the Associated Press reached the scene, the mutilated remains were still lying in the roadway. Portions of them were on the sidewalks, 20 yards distant. The roadway was covered with debris.

Meant for Governor.

The authorities are convinced the bomb was intended for the governor general who was attending services at a cathedral situated a few yards from the scene of the explosion. All high officials and members of Russian society here also were present. The governor general had recently been threatened with a bomb attack, particularly since the May day disturbances.

After the officials had entered the cathedral detectives observed a poorly dressed man loitering on the street.

May Have Defended Self.

When the man saw the detectives he ran towards the entrance of a confectioner's store, when he either tripped or threw the bomb backwards at the detectives. The explosion occurred only a minute before people commenced to pour out of the cathedral.

In all, nine persons were wounded.
